

When answering a statement on *The Cyber Highway* there is a lot of helpful guidance along the way.

Hovering over a highlighted word will provide more detail

...e installed a **Boundary Firewall** syst.

A system, either hardware or software, that is designed to prevent unauthorized access to or from a private network based on a set

1 Boundary Firewalls & Internet Gateways

Corporate networks need to be protected against both internal and external threats. The level to which networks are protected should be considered in the context of the organization's risk appetite, risk assessment and corporate security processes.

1. We have installed a **Boundary Firewall** system to protect the **network** in Scope

Maintain

Selecting "In place" signifies that your organization has the listed control implemented. In the case of Statement 1, it would indicate your organization has a Boundary Firewall protecting the network in scope.

"Please Supply" Section is asking for specific information or to supply evidence

Hovering over "?" will provide more detail on require "please Supply" criteria.

...e of your firewalls ?

... Eg. Our Head office is protected by a Cisco SA 500

Below would be an example of a compliant answer to Statement 1.

Select "In place"

The make and model of the firewall in use

Identify the person, department, or external provider responsible for firewall administration

Please select

In place In progress Not yet actioned Not Applicable

Please supply:

Information about the make of your firewalls ?

Our office network is protected by a Cisco SA 500

Details of who administers them ?

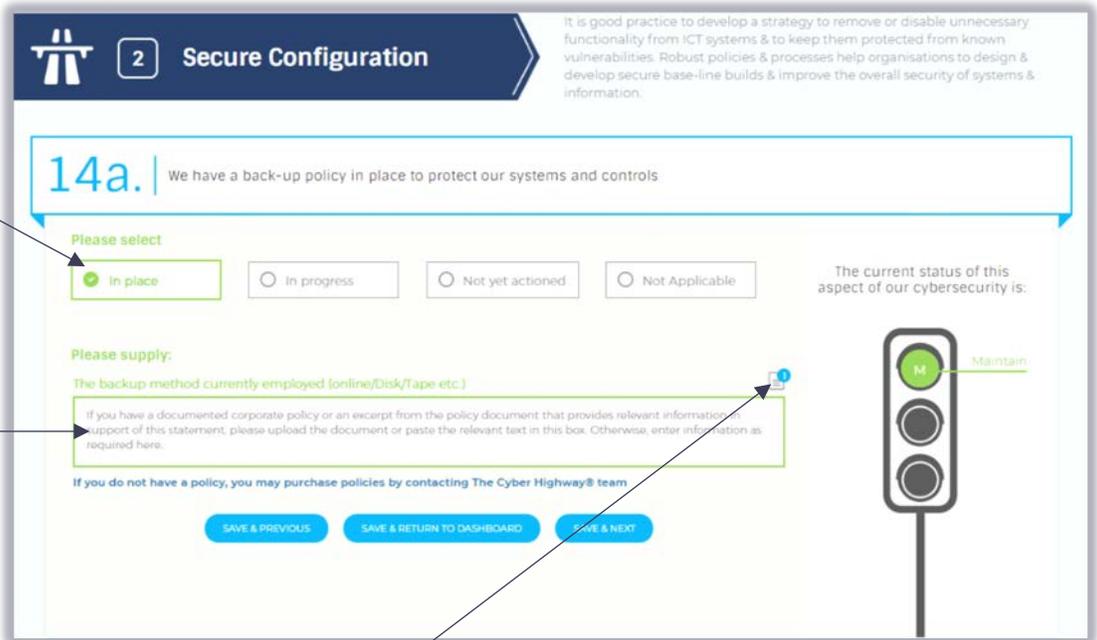

The Firewall is administered by Information Technology service provider

Some statements on *The Cyber Highway* require supporting evidence to be uploaded. Below is an example of how to answer statement 14a.

Select "In place" Indicating you have a Back-up policy in place.

The "Please supply" the back-up method currently employed. i.e. Our organization uses online "cloud" storage for our back-ups.

Statement 14a, requires a copy of the back-up policy in use. Clicking the  icon, the document toolbox window will pop up. Drop and drag a copy of your corporate Back-up policy, or click in the box to open windows explorer to search the files location.

Name	Size	Uploaded by	Date	Remove?

Once you have uploaded the Policy document to *The Cyber Highway* you will notice the icon will now show .

By entering the back-up method used and uploading a copy of the corporate back-up policy, you will have successfully completed the statement.

Your back-up policy should include;

- **What data the organization requires to be back-up**
- **The agreed intervals, i.e. daily, weekly, etc.**
- **Identify the controls in place to protect to protect back-ups from infection or deletion.**
